BULLETIN 2015-19

December 20, 2015

To everyone, please forward out the information below to Post Commanders and others in your Departments, as it may help those of you who are tired of receiving unwanted/unsolicited email "**Blasts**" on subjects that have nothing to do with you. And, this applies to **ANY** unwanted or unsolicited emails from anyone, not just someone within the PLAV, USA.

FYI, an email "**BLAST**" is an unsolicited email, written usually in a derogatory format or with derogatory content, regarding a subject or person, that has nothing to do with you or your Post/Department, however, the writer feels he/she is accomplishing something by inciting **more** discord within the organization. Email "**BLASTS**", such as the ones that have been going out the past several months are **NOT** in the best interest of the "Good of the Organization" for the PLAV, USA, and if you do not wish to receive them, please keep reading.

You have 2 options to prevent these email "Blast Outs".

1. You can set your personal email account, usually under the "Settings" area, to "**block**" any and ALL email from a particular email address. **NO** email will be delivered to you from whatever email address you enter.
2. You can send an email **to** the person that you do not wish to receive these unwanted emails from, and request, in writing, that they **REMOVE** you from their mailing list(s) immediately. If this option is used, please go to your "**SENT**" folder, and print a copy of the email request that you sent, so that you have it for future reference, should you continue to receive these unwanted emails.

I am sending this to **all** of you, as many of you have commented that you are tired of receiving negative emails from particular sources that have nothing to do with your Department, Post or position within the organization.

Should you have any questions, please, feel free to email or call me and I will be happy to discuss the matter with you further.

Respectfully,

Gene S. Hentkowski, National Commander
