Subject: [Non-DoD Source] Anthrax Lot Numbers

Attn: Those who have received the Anthrax series at Ft. Campbell and Drum from 2001-2007 for OEF/OIF,

The VA is starting to rate 100% if you received the series due to bad batches. Per Director of VA. It will officially come out in August but you need to push this now. Back Pay is good stuff

I highly recommend passing this on. Looks like this might go a little viral so here is my disclaimer: This information was gathered from other veterans through Facebook the validity of this data has not been fully vetted but I felt it was more important to share this as a possibility that to let it go unknown. Please get with your VA representative and look into it. Even if it turns out to be false, perhaps the anthrax concerns from so many people will bring the issue into the light..

Update: Here is the full list of the bad batches

"LOT NUMBERS

Squalene-Positive [per FDA and SRI]:
FAV 008, FAV 020, FAV 030, FAV 038, FAV 043, FAV 047

Have Induced Anti-Squalene Antibodies [per Tulane Med School]:
FAV 041, FAV 070 and FAV 071

Associated with Autoimmune-Related Symptoms or Fully Diagnosed Autoimmune Diseases in Troops [per Tulane]:
FAV 017, FAV 048b, FAV 066, FAV 068, FAV 069, FAV 073, FAV 074, FAV 075, FAV 078
